

Notes for Audiologists for Ear Impressions

Audiologist Information

Cosmic Ears manufacture custom in-ear monitors and we require a full ear impression for our customers, including the Crus of the Helix. Please note that the impressions are for MUSICIAN MONITORS.

1. The impression must be taken past the second bend of the ear canal.
2. The impressions must be made with a high-viscosity silicone impression material, we strongly recommend and prefer Dreve Otoform AK.
3. An open mouth impression using a bite block is preferred.
4. Foam stops are preferred.

I confirm that I have taken a full ear impression suitable for musician in-ear monitors as per the requested instructions.

Customer Information

Pack the ear impression in a solid box and gently protect the impressions with packing material to stop any movement, tissues can be used as an alternative to packing material.

PLEASE CHECK THE IMPRESSIONS AGAINST THE SAMPLES ON OUR WEBSITE, ESPECIALLY AROUND THE CRUS OF THE HELIX. <https://www.cosmicears.com/impressions/>
