

## Notes for Audiologists for Ear Impressions

### Audiologist Information

Cosmic Ears manufacture custom in-ear monitors and we require a full ear impression for our customers, including the Crus of the Helix. Please note that the impressions are for MUSICIAN MONITORS and not normal standard impressions.

1. The impression must be taken past the second bend of the ear canal.
2. The impressions must be made Dreve Otoform AK. (if a different material is used, we will not be able to offer the re-fit guarantee)
3. An open mouth impression using a bite block.
4. A full ear impression must be taken.

I confirm that I have taken a full ear impression suitable for musician in-ear monitors as per the requested instructions.
